

JESUS CULTURE

SCHOOL OF LEADERSHIP

LEADERSHIP LIFESTYLE

We are called to live and lead like Jesus. What He modeled is what you will find we continually look to and reference for the culture we want to build and protect in our Jesus Culture School of Leadership environment. We don't have many rules, but we have values that are important to us which we will ask and expect you to protect with us.

These come from what Jesus expressed is most important:

Love the Lord your God with all your heart and with all your soul and with all your mind. This is the first and greatest commandment. And the second is like it:

Love your neighbor as yourself.

MATT 22:37-39

WE ASK AND EXPECT THAT YOU WILL PROTECT:

Your connection with God

Your connection with the community around you

Your connection with your JCSL leaders

Our approach is to help develop right values and attitudes, not just manage wrong behaviors. We expect that you will take personal responsibility for your life, and we will walk with you in understanding what these values look like in lifestyle application.

In your choice to apply for JCSL, our understanding is that you want to take responsibility for the call of God on your life, that you are hungry to grow, and that you are inviting us to help shape your life. Our commitment is to come alongside you with excellent training, encouragement, feedback and coaching to help you grow into that call.

We are excited to see you become the leader you are made to be!

JCSL TEAM
